SYNTHETIC TEST DOCUMENT — NOT A REAL PATIENT

This file exists so an administrator can prove the Gemini path end to end without sending any patient data. Everything on it is invented.

Cardiology Consultation (invented)

Patient: SYNTHETIC-NOT-A-PATIENT

Date: 2026-03-02

Impression: Hypertension above goal on current therapy.

Recommendation: consider increasing lisinopril to 20 mg daily and obtain a hemoglobin A1c, which does not appear in the records provided.

No echocardiogram has been performed.

Signed: A. Testerson, MD (invented)
